#### REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Lakeview Middle School continues to move forward. During the 2004-2005 school year, LMS implemented year two of the Making Middle Grades Work (MMGW) whole school reform model.

In partnership with the Southern Regional Education Board (SREB), Making Middle Grades work is a whole school reform model composed of ten research-based key practices with literacy and numeracy as the cornerstones. The goal is to have all students performing at the Proficient level on a NAEP-based assessment. We feel that this along with our continued emphasis on promoting parent involvement will move Lakeview closer to the NCLB goal of having all students performing at the Proficient level.

MMGW has measurable goals that include: all students complete Algebra I by eighth grade, are able to use concepts to reason and solve problems, use laboratory and technology experiences to learn science concepts, use language correctly and effectively to research, organize and communicate information, describe their heritage, government, world and economic principles in socials studies, benefit from a system of extra assistance and additional instructional time. Teachers will be content certified, use differentiated instructional strategies, use data to drive decision-making and incorporate technology to raise student achievement.

The mission of Lakeview Middle is to develop proficient readers. We believe that reading is the cornerstone to academic achievement and will continue to let our mission be our guide as we work toward raising the performance of every student.
